

GLOBAL STANDARDS & SERVICES

for Petroleum Products, Liquid Fuels, & Lubricants

Committee on Petroleum Products, Liquid Fuels, & Lubricants (D02)

- 2,500+ members
- 70+ countries represented
- 32+ technical subcommittees, 6 coordinating subcommittees
- Compliance with World Trade Organization principles for international standards development
- More than a century of standards development

Standards

- 850+ standards
- 5 volumes of the Annual Book of ASTM Standards
- Standards compilations — gasoline, fuel specs, aviation fuels, ethanol, biodiesel, API content
- Referenced by manufacturers, independent labs, equipment vendors, government agencies, others

Training Courses

- Petroleum Lab Technician series, with certification
- In person training: aviation, diesel, and marine fuels; gasoline; crude oil
- Webinars: petroleum, heavy oil processing, flash point determination

Research & Publications

- Selected Technical Papers volumes — lubricants, fire-resistant fuels, turbine oils, and more
- Reference manuals
- Journal papers
- Symposia and workshops

Proficiency Testing Programs

- 25+ programs — petroleum products, lubricants, and more
- Worldwide laboratory participation

Collaborations

- American Gas Processors Association
- American Petroleum Institute
- Energy Institute (U.K.)
- European Committee for Standardization
