

The ASTM Cannabis Standards Collection **Spanish**

This collection includes several of the most referenced ASTM standard test methods, practices, and specifications developed by ASTM International Committees:

D37 — Cannabis

This collection includes standards from section 15, volume 10.

- D8196** — Practice for Determination of Water Activity (aw) in Cannabis Flower
- D8197** — Specification for Maintaining Acceptable Water Activity (aw) Range (0.55 to 0.65) for Dry Cannabis Flower Intended for Human/Animal Use
- D8220** — Guide for Conducting Recall/Removal Procedures for Products in the Cannabis Industry
- D8222** — Guide for Establishing a Quality Management System (QMS) for Consumer Use of Cannabis/Hemp Products
- D8229** — Guide for Corrective Action and Preventive Action (CAPA) for the Cannabis Industry
- D8250** — Practice for Applying a Hazard Analysis Critical Control Points (HACCP) System for Cannabis Consumable Products
- D8308** — Practice for Cannabis/Hemp Operation Compliance Audits
- D8282** — Practice for Laboratory Test Method Validation and Method Development
- D8309** — Guide for Stability Testing of Cannabis-Based Products
- D8334** — Practice for Sampling of Cannabis/Hemp Post-Harvest Batches for Laboratory Analyses
- D8320** — Practice for Implementing an Information Security Program in a Cannabis Operation
- D8270** — Terminology Relating to Cannabis

Translated standards are continuously added to this collection every year. Once part of the collection, a translated standard is maintained up to date with the English version.
